The undersigned begs to inform the highly respectest community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when used, at 50 p.c less than the same can be bought at any other house.

People under the impression, the they pay their $20 mpc. for a quart bottle of English Ink, can have the same proved, that most of the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses many virtues than most of its kinds.

I.—It is of a very rich black at the moment when used.

II.—Retain its color.

III.—Flows freely off the pen.

IV.—A preserver of the eyes to those, who have much to write at night because they need not so force their eyesight, to see what they have written.

For the reasons explained, I hope that any prejudice generally entertained against Home Manufacture will be laid aside, and all I ask is, to try the same which will be a benefit to the tourer, and the country, in assisting Home Industry.

N. B.—Orders left at the office will be punctually attended to and delivered free of any charges.

WEDNESDAY, MAY 6, 1863.

THE SECOND NATIONAL CONGRESS.

President Mitre inaugurated yesterday the Argentine Congress of 1863. With few exceptions composed of almost the same members as its predecessor: and a good amount of business calls for legislation, there being, this year, no such exciting questions as the Cordoba election, capitalization, &c, to waste public time and personal energies.

The first subject to be brought before the house is the contract of Mr Wheelright for the Cordoba railway, which must be despatched at once, to permit that gentleman's return to Europe by the French mail (14th inst). The currency will demand not less special attention, being in a still more disorganised condition than when the President issued his message last year—"that it was absolutely pernicious and intolerable."

In all countries the monetary currency is National, and until we abolish this enormous provincial institution, financial security is imaginary. A number of Bills for the Upper Provinces will be projected, and we are already threatened with a deluge of paper money.

Immigration has not yet received any tangible encouragement from Congress; the Asylum in calle Corrientes is notice sufficient of the sensitiveness or respectability of this capital, and no country offers fewer inducements to new-comers, or more requires such an act of immigration.

The unlimited debt of Parana and Buenos Ayres has been so long floating that it will be a difficult matter, not without difficulty, if not settled without further delay. Several persons in this city claimed for their money, but in the provinces such poverty and misery owing to the non-payment of these vouchers signed in due form as a bonafide debt.

The Nat. Chambers should also bear in mind that the metropolis calls for their particular care, and if some patriotic spirit amongst them, they will blush to see this rising city behind the rest of civilization; without pavement, drainage, water-supply, fire-brigade, or many other useful and sanitary arrangements.

But we have no doubt the President, in his Message, will recite to the Chambers the most important matters demanding their consideration; and if we have a little patience, and more work, than in the session of 1862, the republic will be all the gainer.

OPENING OF CONGRESS.

At 1 p.m. yesterday the Nat. Chambers met in General Assembly, Don Marcos Paz acting as President: committees were named to receive the Nat. Executive, and in a few minutes President Mitre entered and took his seat beside the Chair, the whole house rising to receive him. The Ministers of Interior, Foreign Affairs, Finance, Justice and War, were also present; The bar, and private boxes were crowded to excess, the representatives of England, France, the States, &c being in the diplomatic seats.

President Mitre addressed the Congress in a brief, pithy, language, congratulating the representatives of popular sovereignty on the progress made during their recess. He remarked that their functions had grown more arduous; the disordered elements of nationality wherever things had now fallen into their normal condition and nothing was requisite but to pursue steadily the march of advancement. He hoped that Providence would bless their labors, and the work would be edified to the cordial union of the great Argentine family, a blessing now happily enjoyed after 50 year's civil war. He alluded to the contents of the Message, which would detail the acts of the Executive since the dissolution, as well as the necessities of the country in its present circumstances. He announced the Session formally opened.

THE NATIONAL MESSAGE.

The Secretary then read the message—which we reserved too late for review: it covers 24 pages, but is replete with important information, and highly satisfactory.

Foreign Affairs.—The Argentine Government was requested by Peru, Chile, Mexico, and the Columbian Confederacy, to join the South American league, in view of the French invasion. It was, however, deemed sufficient to express sympathy for the sister republics, while observing strict neutrality in whatever questions might arise between friendly powers in Europe and America.

The war in the U. States caused great regret, and every prayer was offered to Heaven for pacification. Our relations with England, France and the rest of Europe were most cordial, and claims of foreign citizens were in a fair way to be discharged. A complaint was made by the General Government that our Cabinet far from aiding its enemies avoided active interference in such domestic questions. The death of Prince Albert and the King of Portugal are noted. It is feared a difficulty may arise with Brazil, about frontiers, but that Government has acted very liberally regarding the Argentine claims.

The accession of Don Lopez in Paraguay is mentioned *en passant*, with a tribute of respect to his father. A Minister has been sent to that country. The treaty of commerce with Bolivia is renewed. On the whole our foreign relations could not be more satisfactory and a spirit of fraternity exists between resident foreigners and Argentines.

Interior.—The provinces are getting on pretty well, notwithstanding some partial alarms in various places. The Capital question caused no incovenience to the residence of Congress, the members in this city continuing in perfect harmony. The late disturbances in the interior prove how necessary it is for the National Government to be fixed in Buenos Ayres, the centre of power, resources, &c.

All the Provincial Governments have taken the oath of order, except Rioja where the Governor was deposed by a band of robbers, who made incursions into all the neighbouring provinces. Gov. Sarmiento is now endeavoring to restore order. It is to be regretted that two members of Congress are mixed up in this troublesome affair.

The mail-service is now on an improved footing, and the high-roads call for great reforms. Immigration being the chief blessing for this country, the Government is anxious to foment it. The railway to Cordoba is "a fait accompli," and a project for the extension to Rosario before the Chamber to make a railway from E. Rios to Corrientes.

Finance.—The national rents are in fair condition, and amply cover all ordinary and extraordinary expenses. All public officers and employees have been paid, 9 millions of pesos have been paid to the Provincial Exchequer, 2 1-2 millions monthly has been burned, the interest on the 3 millions—Parana—debt paid, and the 1 million—Buenos Ayres—have been given to the distressed provinces, to the San Juan Mining Co., and to the Artesian Well.

No funds were forthcoming to pay the Paraná treasury notes, bonds etc, but Congress will set aside some revenue for the payment of these, amounting and value of $20 paper per pat. in the Customs, has involved a terrific loss to the Nat. Exchequer. Neither has any remedy been yet found, but proper currency, since this steadily depreciates, and Congress must devise a method either to improve the Buenos Ayrean paper money, or abolish it altogether

Provincial Banks will be established at once in Cordova, Rosario, and Gualeguaychu with strong capitals, and free.

Justice.—the supreme Court is not working, not having its attributes clearly defined

Worship.—Several churches were ruinous or deserted, but they have now been endowed and repaired for Divine Service.

Education.—The provinces of San Juan, Cordoba and Santa Fe, have pronounced against the 13, and a National College is in formation on the basis of Ecclesiastical Seminary of B. Ayres.

War.—Our operations against the Illuja rebels and Chaco Indians have been successful. It is requisite to increase our regular army, for frontier-guards, and thinks the adoption of staff-officers. Our navy counts 3 war-steamer, the rest being united for mail boats.

THE SITUATION.

The American papers have hit upon a method of placing before their readers in a few words the actual position of affairs: this is called the situation. We consider it a capital plan, and mean to adopt it also. Owing to the multitude of facts, the crowding of events, and the treacherous memory of some of our readers; it is necessary constantly to place before their eyes, not only a short statement of things in general, but also, to recapitulate the dangers escaped, the blessings enjoyed, and the patience tolerated in order that both Argentines and Foreigners know what they are about.

"The situation" this week is rather good, and everything from the Presidential chair down to the sheep farmer, trans-oceral looks well.

The President of the Republic has inaugurated the 2nd Congress.

The Governor of Buenos Ayres has been elected by a Ministerial vote.

Peñaloza and his friends have been whipped and are on their way to Chile.

Flores and his friends have been whipped and are on their way to Chile.

The Congress ball is over.

The newly arrived Irishmen have all gone to the camp.

The rain has come at last and the young grass is springing up everywhere.

The new market is almost burnt to the ground but nobody is to blame.

The Provincial legislators have kindly lent their house to Congress.

The greatest harmony exists between the president and the ministers.

The bank burns to-day 2 3-4 millions paper money and ounces are going up.

The Exchequer will be paid immediately, and Mr Wheelwright will leave in the next packet.

Such is a succinct glance of how matters stand. Things look bright; people have great confidence in Gov. Saavedra's prudence: we earnestly trust that he will turn over a new leaf and introduce and sustain a better and more polite tone in his ministers has terminated since Saturday. Like good citizens we should be the chosen of the people and obey the law.

We beg to call his attention to the present exorbitant price of public lands, the impost which the million-peopled city of the law has caused many parties. The duty of the Government to avoid enriching the treasury at the public expense, the prosperity of the country is agricultural industry of the country. For these reasons, we ask the respective Governments of the provinces to reduce the price of public lands, if not, to the former figure at least to a fair national sum for all parties.

EDITOR'S TABLE.

Mr Lezama's capataz does not seem to be doing so well on the other side as was expected. Many of this friends think he would have done better gathering stands of cattle in the South than looking for a blank gauchos on the pampas. Cattle, he may be supposed able to reflect on the vicissitudes of life. Mr Flores has not only been President of the Uruguayan republic but also the most legislated animal of the Argentine army. How a man occupying such elevated positions found it induced to take charge of an estancia, we do not understand. But what is still worse, tempted to invade a country with two men, seems so unprecedently ridiculous, that we look in rain for an apology. Perhaps, apology for such conduct in an ex-President or ex General. Republicanism is a fierce, a humbling, a delusion, if the man who has ruled the destinies of a country is obliged, after his term of office expires, to embrace one of the humblest situations in the country, to earn an honest living for his family.

Our observations respecting freights, seem to have made considerable fun with some of our broker friends. We have only to repeat that we have it on the authority of one of the principal ship brokers in the city, that the Liverpool firm and very few vessels disengaged. Nearly all the deposit stores are getting overcrowded, and consequently the shipping business can be no dull.

The fast Progresso ball has caused a regular "Pow wow" in town. One distinguished Author has shut the door of every Saloon in Europe are open, was refused an invitation. We cannot too strongly condemn such unpunctuality, and have more particularly to censure the Foreigners who subscribed to the ball kind remonstrated in vain.

The Uruguay Navigation Company has declared a dividend of 5 per cent to the shareholders, who have now for two years patiently waited this good news. We congratulate the shareholders on our colleagues remarks upon the great prosperity of the Bolsa company, and asserts that no company in Buenos Ayres can match such results. We beg to call attention to the Argentine Insurance company, which is so well and ably managed by Mr Moreno and the stock of which is consequently greater premium than any other in town.

The lucky holders of the Parana Bonds are notified to call at the Mauá Bank for their money; this must have a very beneficial effect upon those securities. The interest is regularly paid, and the instalments punctually met. It is absurd to suppose that the most sacred evidence of the debt of a nation which pays regularly, should be regarded on par exchange, as so much waste paper.

Our friend, Mr Cazon, will be delighted to hear that an enterprising Englishman is about to start a fire brigade, on the London plan. The system is that he much wanted in Buenos Ayres. and will save some of our high city officials from being reduced to such extremities as that which occurred the other night. We will publish his programme, and hope the Brigade will be at once formed, and valuable services of the military at splendid conflagrations can then be dispensed with.

Yesterday we were visited by Mr Moreno, Senator from Catamarca, who came to thank us for our efforts to foster the cotton industry in the province. He has had much experience in cotton growing in his province, and assures us that this season the quantity of cotton which will be sown in Catamarca will far exceed that of any previous year. Even in Catamarca, the *Standard* has enlisted the sympathies of the population.

An indignant Englishman has called to complain of the Post Office. He states that he was charged two-Ollens postage on one number of the Illustrated London News, and that, as he considers it an overcharge, he begs we will call the attention of the Postmaster to the matter. Sr Posadas is a neighbour, a friend, and an indefatigable public officer; at office hours we do not venture to be found in his bureau, and it would be more appropriate to have a tête a tête with Mr P, than to seek to hold him up to public censure for two paper dollars

We are quite confident that if the charge is illegal, our Argentine Rowland Hill knows nothing whatever of the exaction, and feel bound to say that our quasi fellow-countryman, Mr Morris, who is, to our mind, a valuable member of the Post Office itself, would be the last person in the establishment to charge exorbitant postage, no matter how beautiful the publications, or how interesting the articles.

In Gualeguaychu there is an unusual stir, a new mole has been constructed, and the Architects are engaged making drawings for new Church. The hero of the place is a Frenchman named Mr Gustave Dillet, who is building a splendid steamer for the Fray Bentos trade. It is a great great pity that foreigners don't mix more in society. The people of Gualeguaychu had their will they would elect Mr Marshall as their representative. Mr K——, is to run Dr Rwa against him, and "go about" many; he has put a stir down in Barracas which even the Governor himself could not do, and we hear of him in Entre Rios the man of the day.

Owing to the departure for Europe of Mr C. T. Getting, his household furniture will be sold by auction on the 8th inst, at N. 66 calle Defensa. Not having room for the insertion of the advertisement, we acquaint Mr Getting with the proper medium of Editor's table, which is rather over crowd at present. Parties wishing to purchase should call in the 8th and cheap, should not fail to attend in to-morrow's paper we will publish a list of the furniture &c.

We have been carried the day all last in the Policia. On Tuesday, of the 40 arrests, 25 were foreigners. We regret to perceive this, as we think foreigners in a manner could a secure a majority in that quarter. The number of parties speaking English and German, who are daily arrested, is a serious matter of serious inconvenience to our friend the Chief of Police, who, we hear, is now obliged to take lessons in German and English in the evening, in order to keep up with the run of business.

The difficulty of learning 3 languages at once, is great, but Sr Ollendorff, who introduced 3 Ollendorffs, 3 masters, and any quantity of foreign prisoners, is still as much in the Police, five case as every, when an Englishman or German is brought before him.

Owing to the wet weather the assembly of Mr Rice's guinea show was adjourned to Friday next, many parties being unable to attend, we again call attention to this delightful residence, which is within a mile of the vicinity of the city there is nothing to equal it.

ROSARIO.

We have received the *Diario* 3rd inst. The proceedings of Parana stated that the Italian legion at Santa Fe is working up to change of military uniforms, but the former paper contradicts the assertion. San Luis is said to be disturbed; Governor Sarmiento is on march, with a good force, against the Indian rebels. Mr Cazon's Bonds are now almost deserted on account of the Indian invasion: six months ago its population was 2,000, now it is 1,000. It is said the frontier is quite unprotected, Baigorria, with 100 men being the sole neighboring force.

The Rosario Bar Association presented General Mitre with a beautiful specimen of calligraphy: it is his diploma as President of the Republic, illumined with medallion portraits of San Martin, Belgrano, Rivadavia and Alvear.

NEWS ABOUT FLORES.

There is no no certain intelligence as to where Flores is, but we publish the following rumours.

Monday morning 9 a.m. Flores was terribly defeated at a little frontier town, called "Don't let him go." At 2 o'clock, Flores had escaped: Sr Tucumronbo and was besieging Salto.

At 2 o'clock, Flores was knocked in to a cocked hat, and "waiting for the wagon."

Tuesday 5 p.m, Flores is at the head of 1000 men and forcing Lamas back.

Flores's forces are now encamped taking all the horses and 300 prisoners.

At the starting of the steamer Flores was coming up on Salto.

Gen. Aiton has left Mercedes for Montevideo, and is to take command of a Cavalry regiment.

THE FIRE BRIGADE.

Buenos Ayres, May 6th 1863.

To the Editors.

Gentlemen,—Although almost a stranger in this city of the Argentine Republic, I have been informed (with much pleasure) that the columns of your valuable Journal are at all times open to the complaints, or suggestions, "pro bono publico" of private individuals, and, being desirous, to lend my kind assistance, I will attempt to lay before your readers, "who must be all interested in the matter" a plan which, for its efficacy, the organization of a "Volunteer Fire Brigade."

In all probability I should never have thought of addressing you on this subject, had I not witnessed the fire of the new market place the other night, and there heard the heartbreaking cries of poor unfortunate proprietors, exclaiming "mi casa," "mi casa," "mi casa," was being colloud on all sides.

It struck me immediately on seeing the disorganized state in which the work was being attempted to be accomplished, that the very men who were there, would, if organized, be much more be far wiser were they to turn their attention to the object above mentioned. However there is a little difficulty in the way, which says "it's never too late to mend" may I command this to their notice?

Having organized, with much interest and attention the working of "Fire Brigades" in different parts of the world (both personally and through the medium of the great press papers on the subject) I can remember no system more applicable to this city, than that which is now carried out in all the principal towns of the Colony of Victoria, Australia, previous to their having water laid on, which was the ... All the water carriers were licensed by the Municipal Councils of the respective towns, and their license contained this clause: "Under pain of a heavy penalty, each water carrier shall have his water-cask full every night, and in case of fire he shall attend and proceed to the scene thereof with his cask of water, and the first water-carrier there shall receive six times the usual price paid for carrying water a like distance, and the next four shall be paid so much extra according to the above scale. &c.

The Brigade should consist of a certain number of young able bodied men (any fifty) such as Clerks, Shopmen &c. two of their number chosen by vote should occupy the respective offices of Foreman and deputy Foreman.

At the side of the door of each Fire Station should be painted a list of the hose and ladders, and underneath a bell leading to his room, to give the alarm when needed.

I am at present see no reason why a "Volunteer Brigade" on this, or some similar plan, should not be established in this very city, and worked with the same success as Melbourne.

Should my suggestions meet with the approbation of the public, I will communicate further upon the subject, either personally or by letter, and I enclose my card with address in case it be needed.

I am Gentlemen
Yours truly
ADVANCE.

AUSTRIA.

The statement that has appeared in all the papers that Austria had refused to join in any diplomatic intervention in behalf of Poland, turns out not to have been exact. The Austrian Government was prepared to take a part in such intervention so soon as England had promised her cooperation. But it was supposed in England that refusal of the Austrian Ministry, consented between the Courts of Paris and St. Petersburg, that the initiative of France might end in compromising both England and Austria. Thursday's telegram gave a strong confirmation of this account. They informed us that Earl Russel had taken the initiative out of the hands of France, by addressing a despatch to the Powers who signed the Treaty of Vienna, urging a diplomatic intervention to require from Russia full and entire execution of the first article of the final act of the treaty.

It is well known that the illustrious Diaries of Hapbsburg, now reigning in Austria, derives its name and origin from a castle founded, 1020, in the canton of Argovia, in Switzerland. There now remains but little of that ancient manor house; but all must admit that the great historical recollections connected with them lend an interest to those ruins. The Helvetian Government, therefore, have proposed the purchase to the Court of Vienna, and if the offer is accepted, as is very likely, the castle will be completely restored.

THE IONIAN ISLANDS.

Vienna, March 6.

Advices received here from Corfu of the 3rd instant announce that the Lord High Commissioner has prohibited the assembling of a meeting in favour of the union of the Ionian Islands to Greece, which was to have been held under the presidency of the Archbishop. The Lord High Commissioner at the same time intimated that should similar demonstrations take place, they would suppressed by the police. The same advices add that the committee of the meeting will protest against the decision, in the English Ministry. The Vienna papers publish news from Athens stating that the National Assembly has authorized the Ministry to contract a loan of 6,000,000 drachmas.

MISCELLANEA

SOMMER'S TOUR.—"L'Armonia" of Feb. 24, states that the Emperor and Empress of Austria have recently contributed the sum of 2 0 ducats, towards the funds for the restoration of the parish church of Zolkiet where repose the mortal remains of the deceased members of the famous King of Poland, Sobieski.

SEVEN HUNDRED MILLIONS OF DEBT.—"The Armonia" speaks as follows about the debate on the proposed new loan of seven hundred millions. By the Ministerial Bill, power is given to the Minister of the Finance to dispose of as much free per budget of the Treasury, and in the budget of the public debt, as will produce seven hundred millions of francs to the Treasury. Garibaldi's shout of "Rome or death!" was in Aspromonte, Marco Minghetti's shout of "Seven hundred millions or death!" will take the Kingdom to the Abyss. We are going too far, and, what is worst, we are going fast with our eyes shut. The Loan Committee recommends unanimously that what had previously confessed to be a colossal loan, "one of the largest that any nation has asked all at once from its universal creditors" ... yes it. *Sic itur* ... to national bankruptcy; whatever that may mean.

LOCAL EVENTS.

IMMIGRATION.—We have heard on good authority, that Mr. Werner concessionary of the Italian Immigration enterprise, now in London, has formed a company with a capital of 500,000£ to carry out the scheme: we wish him every success.

THE SPANISH SQUADRON—Which has lately arrived has received orders offecall from the Spanish Admiralty.

It is reported that a family of this city peculiarly interested in those two men found in a desert island by the Spanish steamer "Covadonga". It is now certain that a gentleman from Buenos Ayres with another companion, twenty three years ago, escaped from a shipwrecked vessel in Patagonia, and living has been here since and the date of their arrival on the recent discovery corresponed with those of their loss.

NATIONAL COLLEGE.—This establishment will be inaugurated the 8th of May.

It is no new institution but simply the transformation of the Provincial Ecclesiastical college and supported by a provincial income.

NATIONAL GOVERNMENT.—The resignation of Dr. Mariano Varela of the post of sub Secretary of the Interior has not been accepted yet; several promotions have taken place in the semiofficous Department of Public Instruction.

All the National offices are now removed to the Government House in the Plaza 25 de Mayo.

THE BOLSA CHAMBER.—Has subscribed six ounces to the Belgrano statue and not the Bolsa itself as stated in the list of subscriptions.

The members of the Bolsa who have subscribed the amount are Messrs. Santa Maria, Sassemberg, Vignol, Wyatt Smith, Demarchi and Cambaceres.

CONGRESS.—On Sunday arrived per Paiwa Rc. Pons, Senator for Tucuman and Mess Velez, Zavalia, Moreno and Pizarro deputies for Cordoba.

ARGENTINE INSURANCE Co.—A general meeting of the shareholders of this successful company is to take place the 20th May, at 2 o'clock p. m. in the company's office according to their statutes.

On 'Change.

May 5th.

Ounces opened at 437 1|2 and closed at 436 1|2; very few sales were effected amounting to 900 ounces each.

260 for Wednesday at 437 to 36 1|2.
600 " Saturday at 437
500 " 31st May at 434 1|2
Total sales 2,310 ounces.

In the plaza nothing has been done on account of the bad state of the ground from yesterday's heavy rain.

In the folas there has been a little more activity than we expected and sales as follows:

3,00 ceiled horse hides 25 a 26|0 12|2s.
3000 dry Entre Rios hides 41 1|2
73 dry Corientes wool 23 "
200 dozen cheepskins 115 "
1000 beceerro and low weight 50|lb.

Nothing has yet has been done in Exchange on England. On the Folas to-day, nobody spoke about Fixes, all were talking of the inauguration of Congress; very little was done in the way of business, ounces seem dropping.

The Provincial observations should the Casa de Moneda was a regular home thrust. Every merchant in town unless his sentiments the Bank must be reformed, sees the value of the paper dollar ascertained.

We omitted to mention that a coil of £10 has been made on the River Plate Bank Shares, with permission to pay up to £50 on each share: they were selling on the London Exchange at £3 premium. The Argentine Insurance Co, calls a meeting on the 20th inst. Nearly 3 millions of paper money will be burnt to-morrow in the Bank, and parties having delapidated bills should avail themselves of the opportunity. Paper money is very cosy, bolivianos abundant, ounces without much demand.

No more Scab in Sheep.

The undersigned an old sheep farmer in the south of this province after many years of study to the previsions infirmity of the scab, has at last discovered an infallible remedy against a sickness that in the hoty where it generally breaks out like a storm resisting all the remedies that to this time have been discovered.

This specific so simple in its application as great in its result, is preferable to all invented until now, it is cheaper than tobacco, and free from poisonous substances contained in all other remedies before invented.

With only one ounce of my specific there is sufficient for the Scab of 800 or 1000 sheep, and the low price of 6 10|0.

It will facilitate all sheep farmers to receive their sheep in a perfect state of healthiness to manage this cure easily and induce farmers to prove it. I have demonstrated to sell small packages of one pound 8 8|0 I have at every one's disposition who wants to prove its infallibility.
